

HASLEY WON THE MEDAL

Last of the Series of Road Races Run Yesterday.

THREE RIDERS COMPETED

Each of Whom Had a Race to His Record—A Strong Head Wind Blew—The Riders Made Good Time.

J. A. Hasley won the road race yesterday and is now the possessor of the \$25 gold medal. The run was the fourth of a series of bicycle races commenced nearly a year ago. The first run was to Deer Lodge and was won by Bert Moore. The second was a 30 mile run to the Hump and back and was carried off by Ted Wilkinson. The third race was to Grapeseed Springs and return and was won by J. A. Hasley. The three winners were then entered for a final contest and the course chosen was from MacCallum & Cloutier's store to Warm Springs. The road is a very fair average Montana highway and is slightly down grade.

The racers started at 1:30 o'clock yesterday afternoon and tracked behind each other nearly all the way, and at no time were more than a few yards apart. The wind was a head one and at times blew with such force that the wheelmen could hardly see the road ahead of them for the dust.

J. A. Hasley took the lead from the start and maintained it all the way, followed by Bert Moore, who kept about two lengths behind Mr. Hasley until within a short distance of the springs, when Mr. Moore fell some distance behind in order to catch his wind for a final spurt. Mr. Hasley was the first in making the run in 34 minutes and 20 seconds. Mr. Moore was second, only 27 seconds behind the winner, his time being 34:57; Mr. Wilkinson was a good third, 23 seconds behind Mr. Moore and made the distance in 35:20. Considering all the conditions the time is very good, the distance being a slight fraction under 11 miles.

The racers were accompanied by a large cavalcade of riders, numbering 20 in all, most of whom started out ahead of the competitors and were strung out along the 11 miles of road. No accident befell any of the three champions, though they were all riding light wheels of the Stearns road racer brand.

C. P. King, who was a member of the escort met with an accident at a corner, which slightly disfigured him for the time, but did not otherwise injure him. There was a sudden rain in front of the bridge and Mr. King rode at it in fox hunting style with the intention of jumping it. He made the jump all right, but upon alighting on the round poles of the bridge his front wheel turned and stuck in a crack between two of the poles, with the result that Mr. King went on and landed head first in a foot of mud about six feet below the bridge. His friends soon pulled him out of his embarrassing predicament by his feet, which were extended toward the sky. He was considerably shaken up and as black as the residents of darkest Africa, and it required a great deal of persuasion on the part of his friends to assure him that his head was not dislocated. The perspiration was running down his face in streams and it was some little time before his attendants could make him believe that he was not losing his blood and brains. In his fall his head struck something hard, and he felt positive that his brain had been cut open, but he sustained nothing worse than a bruise.

All the wheelmen rode home together with the exception of Frank Foskett, who rode against time for a record. He made the trip in 39 minutes, 59 seconds, which is said to be the best time ever made on the up-hill course. It is needless to say that no record was kept of the hours in this remarkable burst of speed, but the minutes and seconds as given above are certified to by the official timekeeper. The party arrived in Anaconda upon its return at about 6 o'clock.
